

Allschwil, January 2023

Dear valued customer,

Due to rising costs of energy and transportation globally, unfortunately, we also see ourselves forced to make price adjustments at this time.

These price adjustments mainly affect service costs, transport costs and coolants.

We intend to keep price adjustments of our own products and those of our re-sale products as moderate as possible.

As in the past, we are building on partnership and fairness.

We wish you a successful and prosperous new year!

BioConcept Ltd.
